

## Study visit to Sweden

28.08.2015 08:12

A study visit to Sweden for representatives of both houses of the Parliament of the Federation of Bosnia and Herzegovina, and Mr. Mato Jozić, Minister of Justice of FBH, is to take place on 1-4 September 2015 under “Capacity Building for Improvement of Land Administration and Procedures in Bosnia and Herzegovina Project”, and in the organization of the national geodetic authority of the Kingdom of Sweden, "Lantmäteriet".

Being one of the oldest cadastral agencies in the world, the national geodetic authority for mapping, cadastre, and land registration of the Kingdom of Sweden, „Lantmäteriet“, is achieving notable results in timeliness of its records while maintaining a strong presence in implementation of international projects. The competent institutions in Bosnia and Herzegovina are guided by the examples of the Kingdom of Sweden in their implementation of land administration reform, primarily in development of legal framework and legislation regulating the field of land administration, because it is one of the most orderly countries in that field, with the tradition of about 400 years.

During this study visit, the representatives of the Parliament of the Federation of Bosnia and Herzegovina, Minister of Justice, and Director of the Federal Administration for Geodetic and Real Property Affairs of FBH will be presented IT achievements, legal framework and legislation regulating the field of land administration in the Kingdom of Sweden, and how effective land administration impacts economic and social development.
