

Agreed project of network leveling of high accuracy is adopted

29.01.2016 16:03

In Banja Luka, Bosnia and Herzegovina on January 29, 2016, the text of the agreed Project of high accuracy network leveling is officially adopted. The project was signed by Mr. Željko Obradović, director of the Federal Administration for Geodetic and Real-Property Affairs, Mr. Miloš Komljenović, director of the Republic Administration for Geodetic and Real-Property Affairs of the Republic of Srpska, and Mrs. Anđe Zimić, CILAP project director.

The goal of this Project is to create a harmonized documentation for the implementation of leveling networks on the whole territory of Bosnia and Herzegovina, and on the basis of existing technical solutions and definitions. The Project among other things, elaborate in detail methods of measuring leveling.

For this purpose, prof. Oleg Odalović, author of the Project held a presentation of the adopted Plan.

This Project is the fruit of cooperation of mutual expert working groups of both administrations for Geodetic and Real-Property Affairs, whose work is supported by CILAP project, within Component 4: Development of the Geodetic Infrastructure and Methods.
