

CONFERENCE "DAYS OF SPATIAL DATA INFRASTRUCTURE OF THE FEDERATION OF BOSNIA AND HERZEGOVINA" - FIRST NOTICE

20.09.2023 15:35

Federal Administration for Geodetic and Real Property Affairs, as the coordinating body of Spatial Data Infrastructure in the Federation of BiH, organizes the fourth conference "Days of Spatial Data Infrastructure of the Federation of Bosnia and Herzegovina", from 26th to 27th of October 2023 in Neum, Hotel Sunce.

The conference is an opportunity to gather all participants in the field of spatial data infrastructure and a base for conversation, exchange of opinions and experiences, as well as an overview of current progress in this field.

Detailed information about the conference (Programme, keynote speakers and other speakers) will be published in the second announcement in the middle of October, as well as presentations by distinguished experts from the Kingdom of Sweden and the Netherlands, as well as from the region and Bosnia and Herzegovina, private and academic sectors are planned.

Participation at the conference is free (no registration fee). Due to the limited number of places for participation, the possibility of registration will be available until the vacancies are filled.

Federal Administration for Geodetic and Real Property Affairs invites all interested participants to submit their applications to the Conference by October 18th, via application [FORM](#).
