

Conference "Days of the Spatial Data Infrastructure of the Federation of BiH" – First Announcement

28.07.2025 13:36

Spatial Data Infrastructure of the Federation of Bosnia and Herzegovina

Federal Administration for Geodetic and Real Property Affairs

Federal Administration for Geodetic and Real Property Affairs, as the coordinating body of the Spatial Data Infrastructure in the Federation of Bosnia and Herzegovina, is organizing the sixth conference titled “Days of the Spatial Data Infrastructure of the Federation of Bosnia and Herzegovina”, which will be held from September 25 to 26, 2025, in Mostar, Hotel Mostar.

This year’s conference is being held as part of the GeoConnect project – Connecting Geoinformation Expertise for Responsible and Transparent Governance, which is funded through the Netherlands Enterprise Agency (RVO) under the Matra Government-to-Government (Matra G2G) programme. This programme supports projects in countries neighbouring the European Union that aim to strengthen the rule of law, democracy, and good governance. More information about the GeoConnect project is available on the official websites of IPP FBiH, FGU, and other project partner institutions.

As part of the conference preparations, thematic pre-conference workshops are planned – on September 23 in Sarajevo and on September 24 in Mostar – for targeted groups of SDI subjects of the Federation of BiH.

Detailed information about the conference (agenda, keynote lectures, and speakers) will be published in the second announcement at the end of August. This year's program will feature a rich scientific and professional agenda, primarily oriented toward the SDI Subjects of the Federation of BiH.
