

EuroGeographics Technical Producers Meeting was held

16.09.2016 12:08

Over 60 experts from 34 countries gathered on September, 14 and 15, 2016 in the premises of Kadaster The Netherlands in Amsterdam to held a 2-days meeting for the data producers of EuroGeographics' pan-European products: EuroBoundaryMap (EBM), EuroRegionalMap (ERM) and EuroGlobalMap (EGM).

Year 2016 is an exciting period for EuroGeographics' products. Following a review of the production process at the end of 2015, the Production Management Team have identified a more streamlined process which will start in Year 2017.

Eurogeographics is a nonprofit organization that was established in Year 2001 as a membership association and acknowledged voice of the European National Mapping, Cadastre and Land Registry Authorities. Federal Administration for Geodetic and Real Property Affairs is a member of the European Association since Year 2006.

On behalf of the Federal Administration for Geodetic and Real Property Affairs at this meeting was present Mr. Denis Tabučić an employee of Geoinformatics sector.
