The Eurogeographics webinar „National SDI portals for a wide range of uses“ was held on 31 March as part of a series of webinars aimed to connect EG members, exchanging knowledge and new opportunities in education and daily work.

Mr. Jasmin Catic was held a presentation on behalf of the Federal Geodetic Administration and presented basic information on Spatial Data Infrastructure of Federation of Bosnia and Herzegovina, technical and legal frames, as well as SDI FBiH Geoportal. He also presented main activities in the past and current year in the SDI FBiH field, as well as future work, planned projects and activities. The presentation had a fairly good response from EG members with many questions and praise for the Federal Geodetic Administration work in the Spatial Data Infrastructure field.
