

Final meeting of both Administrations for Geodetic and Real Property Affairs and World Bank representatives was held

17.05.2017 13:05

As part of the World Bank mission, the final meeting of both Administrations for Geodetic and Real Property Affairs and World Bank representatives was held. The meeting was held on May 17, and the main agenda was regular World Bank Mission monitoring of implementation of the Real Estate Registration Project - RERP in BiH, which is financed by World Bank credit.

The Project has started in September 2013, and the main activity of the Project is harmonization of cadastral and land registry data in urban areas in the Federation of BiH or public display of real estates in the Republic of Srpska.

As part of this regular World Bank mission, (3-17.05.2017) the analysis on all components and activities envisaged by the Project is carried out and guidelines for implementation of the next requirements within the Project are given. Bearing in mind the complexity of the individual phases of the Project, mutual satisfaction with the results was expressed and at the same full support to the both entity Administrations for Geodetic and Real Property Affairs and their Project Implementation Units was given.

The meeting was attended by CILAP project representatives, which among other activities, also provide technical support to the Real Estate Registration Project.

U ime Federalne uprave za geodetske i imovinsko-pravne poslove sastanku su prisustvovali direktor Željko Obradović i pomoćnik direktora i ujedno rukovoditelj jedinice za implementaciju projekta Nedžad Pašalić.

On behalf of the Federal Administration for Geodetic and Real Property Affairs Mr. meeting was attended by Željko Obradović, Director and Mr. Nedžad Pašalić, Assistant Director and the head of Project implementation Unit.
