survey and cadastral classification of land was prepared, which created the technical conditions for the public exhibition process. Currently, the public exhibition process is carried out in three cadastral municipalities (Jajce II, Podmilačje and Divčani), and it has been agreed that the Federal Administration, Municipality Jajce and the Cantonal Administration will sign an Agreement on the co-financing the public exhibition process in three additional cadastral municipalities (Rika, Lupnica and Brvanci).
