

MEETING WITH REPRESENTATIVES OF THE MUNICIPALITY OF BOSANSKI PETROVAC

11.06.2025 11:12

A meeting with representatives of the Municipality of Bosanski Petrovac was held in the premises of the Federal Geodetic Administration, and topic of the meeting was current status of project activities and future plans of the land administration sector in this Municipality.

The greatest interest was expressed in activities regarding public exhibition of data regarding survey and cadastral classification of land. Preparations for the public exhibition were carried out through the creation of temporary database, which has been satisfactory completed. The process of the public exhibition has begun in accordance with the Regulation, but the work dynamic is not at the right level, considering the importance and interest of the Municipality for higher-quality cadastral and land registry data.

The work dynamic for the continuation of the public exhibition was agreed upon, supported by the new World Bank project- GIVE, as well as through the budget funds, so that Municipality of Bosanski Petrovac will have improved land registry data as soon as possible.
