

Presentation of the Digital Orthophoto Maps for the Territory of the Federation of Bosnia and Herzegovina in Belgrade

24.04.2019 12:17

Traditional Annual Conference „Vekom and Friends “was held in Belgrade on 23 April 2019.

On the Conference was presented Project of Digital Orthophoto Maps for the Territory of the Federation of Bosnia and Herzegovina, which was successfully implemented at the end of 2018. As a result of this project, Digital orthophoto maps for the territory of Bosnia and Herzegovina were made based on satellite measurements from 2018 in a resolution of 40 cm for whole territory of Federation of BiH and in a resolution of 30 cm for urban areas of the Federation of BiH (20% of the territory).

On behalf of the Federal Administration for Geodetic and Real Property Affairs were Director, Mr. Željko Obradović and Assistant Director, Mr. Nedžad Pašalić.
