

## Seminar on Theme “Mass Valuation System“ Held

28.11.2014 08:54

Representatives of the Federal Administration for Geodetic and Real Property Affairs of FBiH and the CILAP Project visited Priština on 17-20 November 2014 under the IMPULS Project. The objective of this visit was to partake on 17-18 November 2014 in a seminar on „Mass Valuation System“ in which experiences and examples from the countries that have either already implemented or started developing a mass valuation system were shared.

The seminar was facilitated by the experts from Lantmäteriet, Messrs. Hans Söderblom and Olof Färnkvist, who presented the experiences from Sweden to the participants, stressing the advantages of and the activities required for implementation of a mass valuation system and related services/systems (e.g., price register, database, property tax registry).

During the second day, the participants presented the activities and the experiences from their countries related to the theme of the seminar. The representatives of the Federal Administration for Geodetic and Real Property Affairs of FBiH presented the activities that were done through the respective subcomponent of the CILAP Project regarding a study of property valuation. This presentation included the practical examples of outcomes, findings, and information achieved in the pilot area, and the activities planned for the next year under this subcomponent.

The main objective of the IMPULS Project is for the countries of the region to have a modern and functional framework for spatial data sharing in line with the regional and international requirements. Also, the objective is to accelerate development of innovative INSPIRE services for better decision-making and achieve data and service interoperability. The countries beneficiaries of the project are Albania, Bosnia and Herzegovina, Montenegro, Croatia, Serbia, Macedonia, and Kosovo.
