

Technical Meeting of EuroGeographics Data Producers

14.04.2014 14:05

68 delegates from 36 countries, technical producers of EuroGeographics products and their managers, met in Vienna, Austria, from 9-10 April 2014, where they took part in a traditional annual meeting.

This unique meeting was hosted by the Federal Office of Metrology and Surveying of Austria. Head of Division for Surveying Services, Mr. Michael Franzen, welcomed the meeting participants and delivered a keynote speech.

The meeting participants, who are the experts creating the pan-European products and services, had the opportunity to hear during the meeting about the development of EuroGeographics, changes in the data specifications and the expectations placed before national cadastral and surveying agencies. This meeting additionally served as a basis for experience and knowledge sharing in the field of geodata.

Federal Administration for Geodetic and Real Property Affairs, which is a full member of EuroGeographics, was represented by Mr. Denis Tabučić, staff of Geoinformatics Division.
