

## The Eighth Regional Conference on Cadastre and Spatial Data Infrastructure held

16.06.2015 08:15

The Eighth Regional Conference on Cadastre and Spatial Data Infrastructure was held on 16-17 June 2015 in Priština. The Kosovo Cadastral Agency hosted this conference. The theme of this year's regular conference was „Multipurpose Cadastre in the Procedures of Land Administration“.

Representatives of all nine cadastral agencies from the region attended the conference.

In the introductory part of the conference, Ferid Agani, Minister of Environment and Spatial Planning of Kosovo, and Murat Meha, Director of the Kosovo Cadastral Agency, welcomed its participants.

On the first day, current activities of the cadastral agencies from the region were presented, with a special emphasis on multipurpose cadastre and spatial data infrastructure. Progress is evident in collecting, processing, and sharing of cadastral data and in implementation of the INSPIRE Directive in land administration sector.

The Federal Administration for Geodetic and Real Property Affairs of the FBH was represented in this conference by its Director Željko Obradović, Tomislav Tomić, and Slobodanka Ključanin. Tomislav Tomić delivered a presentation on cadastral information system and projection of future activities in this sector.

Representatives of the international organizations (Eurogeographics, FIG, UN-GGIM, Lantmäteriet, etc.) presented their activities and experience in the field of data sharing and use of various services, with a view to supporting cadastral agencies of the region in preparation and implementation of crucial projects.
