

The Eurogeographics Extraordinary General Assembly

25.05.2023 14:53

The Eurogeographics Extraordinary General Assembly held on May 25, 2023 through online communication platforms, and most of the association members from over 50 European countries participated.

The focus of this year's Extraordinary General Assembly was on the adoption of new Statute text in order to harmonize it with the Belgian Code of Companies and Associations, the EU country where the association is registered. On this occasion, the members confirmed changes casting their votes, all with presence of a notary in the main Eurogeographics office.

On behalf of the Federal Geodetic Administration at the Management Board participated Assistant Director Mr. Denis Tabučić, while the Director Mr. Željko Obradović participated at online sessions of the Assembly.

The next regular General Assembly will be held in Seville, Spain in the first half of 2024.
