

The IMPULSE Project national workshop „Business model of the FBiH Spatial Data Infrastructure“ and session of the FBiH SDI Council

27.06.2019 08:50

The IMPULSE Project national workshop “Business model of the Spatial Data Infrastructure of the FBiH” was held in Sarajevo on 25 June 2019.

On the workshop participated members of the FBiH SDI Council, members of the working groups (Working group for Institutional and Legal Affairs, Working group for Communication and Capacity Building and Working group for Business Model), the Subjects of FBiH SDI (Sava River Basin Agency, Adriatic Sea Watershed Agency, Federal Institute for Statistics, Federal Institute for Geology, Federal Hydrometeorological Institute).

The Working group for Business Model of FBiH SDI prepared and presented first draft of the FBiH SDI

Business Model, and the introductory presentation was held by IMPULSE Project expert Mr. Lysell Gunnar. After the presentation on F BiH SDI Business Model members discussed and suggested that SDI business model should collaborate with SDI Entities to be applicable in practice.

Fifteenth session of the F BiH SDI Council was held after the workshop, members discussed the first draft of the F BiH SDI Business Model and suggested certain adjustments to make clear what activities should be taken for the implementation of proposed SDI Business Model. It was also discussed about a new three-year work plan of the IPP F BiH Council on the basis of plans of its working groups.
