

WORKING MEETING HELD WITH REPRESENTATIVES OF MUNICIPALITIES OF ODŽAK AND ORAŠJE ON CONTINUING IMPLEMENTATION OF LAND CONSOLIDATION

10.06.2015 16:00

Representatives of the Federal Administration for Geodetic and Real Property Affairs of the FBH visited the municipalities of Odžak and Orašje, where they met with the Mayors of these two municipalities, the Head of the Department for Spatial Planning and Real Estate Cadastre and the Head of the Department for Cadastre of the Municipality of Odžak, the Head of the Department for Technical and Common Affairs and the Head of the Department for Spatial Planning and Real Property Affairs of the Municipality of Orašje, the President of the Land Consolidation Commission of the Municipality of Orašje, technical and responsible persons from the land cadastre department, and representative of the company Trafficon Ltd. Odžak.

The status of the land consolidation activities completed in the Municipality of Odžak (CM Vojskova, CM Trnjak – Zorice, and CM Donja Dubica) and in the Municipality of Orašje (CM Vidovice, and CM Kopanice) was presented in the meeting. Additionally, the results achieved were reviewed and a proposal for continuation of the projects initiated was agreed.

It was agreed to:

- speed up procedures to resolve the remaining appeals in both municipalities;
- start as soon as possible the tender procedure for continuation of land consolidation of the Municipality of Odžak;
- how to remove the shortcomings identified in the process of developing the final report in the Municipality of Orašje;
- hold a meeting of representatives of the FGA, the Land Consolidation Commission, and representatives of the land registry offices for both municipalities.

The Mayor of the Municipality of Odžak highlighted that the implementation of the project initiated in the Municipality of Odžak depended on the constrained funding. However, he also highlighted that he would ask all stakeholder institutions to which the completion of this project would be of relevance for support.
