In the continuation of the workshop were exchanged experiences and practices in cases of the land register replacement and establishment within the Real Estate Registration Project, with special reference to real estate that was entered as some form of state property, and it was determined that it was a construction, agricultural or forest land.

On the second day of the workshop was held a presentation on the topic "Mapping of vulnerable groups and social monitoring within the Real Estate Registration Project - additional financing", as well as analyzation of the previous second-instance decisions in cases of replacement and establishment of the land register based on the new cadastral survey, which was followed by a constructive discussion.
