

# **WORKSHOP „THE ROLE AND COMPETENCIES OF INSTITUTIONS WHO COORDINATE IN THE SPATIAL DATA INFRASTRUCTURE ESTABLISHMENT“**

29.03.2018 16:06

A workshop „The role and competencies of institutions who coordinate in the spatial data infrastructure establishment“ was held in Gävle, Sweden from 27 to 29 March 2018. The workshop was organized within the IMPULSE project implementation, which has been implementing like a regional project for capacity building and efficient spatial data infrastructure establishment in the West Balkan countries.

The main goal of this workshop was new knowledges and experiences exchange between participants, about the role and competencies of institutions who coordinate in the spatial data infrastructure establishment.

Federal Geodetic Administration is coordinator for establishment the spatial data infrastructure in FBiH, results of this workshop will be useful for activities coordination from this area in FBiH. Behalf of the FGA participated Mr. Nedžad Pašalić, Assistant Director for geoinformatic, and Mrs. Slobodanka Ključanin, coordinator of the IMPULSE Project in FBiH.
