

World Bank mission

01.02.2017 16:02

As part of the World Bank mission, the final meeting of both Administrations for Geodetic and Real

Property Affairs representatives and World Bank representatives was held. The meeting was held on January 30, and the main agenda subject was an analysis of implementation of Real Estate Registration Project - RERP in BiH.

The main project activities in the Federation BiH are related to harmonization of cadastral and land registry data in urban areas, respectively public display of real estates in Republic of Srpska.

At the meeting it was pointed out that all activities are carried out in accordance with adopted and agreed plans, and mutual satisfaction with implementation level was expressed.

The best way to check project progress are indicators, who were presented at meeting, and one of the most important indicator is level of user satisfaction. As for the Federation of Bosnia and Herzegovina, level of user satisfaction is approximately 80%, and in Republic of Srpska approximately 76% of users are satisfied.

World Bank representatives are satisfied with current results and cooperation of both geodetic administrations with the World Bank. Due to complexity of the project implementation and more requests of certain representatives of local governments, the possibility of project continuation is confirmed.

The next mission of the World Bank, in order to monitor the Real Estate Registration Project, will be held in May 2017.
